SPEAKERS

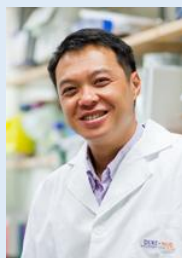

KWEK Swee Sen
MD-PhD Programme
Duke-NUS Medical School

Biography: Swee Sen obtained his Bachelor degree in Medical Microbiology and Immunology from University of Wisconsin-Madison and is currently a MD-PhD student completing his PhD studies with Prof. Ooi Eng Eong in Duke-NUS Medical School.

Dr Ian WEE
Internal Medicine Resident
SingHealth

Biography: Dr. WEE is a third year SingHealth Internal Medicine Resident with an interest in public health, tropical medicine and infectious diseases.

Prof. OOI Eng Eong
Deputy Director, Programme in Emerging Infectious Diseases
Duke-NUS Medical School

Biography: Prof. OOI is the Deputy Director of the Programme in Emerging Infectious Diseases, Duke-NUS Medical School. He is a clinician-scientist by training and his research on dengue is positioned at the interface between clinical epidemiology, virology and immunology. His laboratory is interested in how antibodies either protect against or enhance dengue virus infection and what viral factors influence epidemic dengue activity.
