

MODERATOR

TWO-HOUR ONLINE

CONFERENCE

20th October 2020

by the International Out-Of-Hospital Cardiac Arrest Registry Group

Communicating registry output
to improve cardiac arrest outcomes

Jan Wnent (Germany)

Dr Jan Wnent, born in 1979, is a specialist anesthesiologist with sub-specialisation in emergency medicine, intensive care medicine and medical quality management. Dr Wnent holds a masters degree in disaster management and risk governance. Currently, he is head of acute care services at Katutura State Hospital in Windhoek, Namibia and part of the national case management committee on COVID-19 within the Ministry of Health and Social Services, Namibia.

He is associate professor for critical care and emergency medicine at University of Namibia, School of Medicine. Dr Wnent is a member of the steering committee of the German Resuscitation Registry and member or the EuReCa study management team.
