### **Student Feedback**

“Jeremy has put in his heart to present best tutorial. His content, slides, videos, discussions were very helpful. Jeremy's concepts are crystal clear.”

“I would like to shoutout to the TA Jeremy, who made so much effort in the tutorial slides, examples, explanation of quizzes, drawing on the whiteboard etc. He was so patient and diligent, and I am very grateful for how helpful his tutorial sessions were.”

“Jeremy is a brilliant TA – in this dedication to think through case examples to better explain content, to illustrate them through the use of whiteboard etc, in breaking down essential content and explaining them in detail so that the class will better grasp. I found his classes highly useful and essential to reinforcing the content from lecture, and appreciate how approachable he is.”

“Jeremy goes the extra mile to engage with students in tutorial to explain problem sets and quiz questions. He is patient and will attempt to explain concepts in multiple ways until students fully understand these concepts.”
