## The CoRE Campaign **REGULATORY EXCELLENCE FUND**

*Enabling a world where everyone has access to good, safe and effective health products*

***At the Duke-NUS Centre of Regulatory Excellence (CoRE), we promote the advancement of excellence in regulatory science and practices to safeguard the health and wellbeing of patients and populations.***

As biomedical research and development rapidly evolve, robust regulatory frameworks for innovative health products are more crucial than ever.

The Asia-Pacific region has made great strides in enhancing health and regulatory systems to meet the needs of its people. However, much work remains to be done as the region collectively faces new public health challenges.

For this purpose, CoRE has launched the Regulatory Excellence Fund.

Contributions to the Regulatory Excellence Fund will play an important role in enabling the Centre to sustainably address region-wide issues, explore new opportunities for innovation and impactful change, and promote long-lasting cooperative solutions.

# Investing in the Future of Healthcare

Your unrestricted gift provides a flexible and powerful form of support by allowing funds to be deployed when and where they are needed most. This is critical to meeting emerging demands and unanticipated opportunities.

Moving the needle to enable rapid, regulatory behavioural changes

Strengthen ties with Singapore-based technology developers, engage experts and empower cooperative solutions developed by regional and international Regulatory Authorities, Governments, Academia, and Industry.

Promote innovation in regulatory science and health policy by supporting targeted research, convening multistakeholder roundtables across all sectors and publishing reports and publications in CoRE's key focus areas.

Build competencies, develop more case-based learning materials, and attract internationally-recognised faculty and thought leaders for CoRE's well-received education and training programmes that target strengthening of professionals and systems across the region.

# CoRE as an Enabler

## Why Give?

Contributions to this fund will empower the Centre to sustainably tackle health issues, drive innovation, and foster impactful change through long-lasting collaborative solutions. Unrestricted donations will empower the Centre's capacity-building and think-tank initiatives, fostering the work of its dedicated team of thought leaders, educators, researchers, and administrators.

The funds aim to enhance the region's regulatory capabilities by supporting the

Centre's efforts to refine educational programmes, meet evolving needs, and prepare regulatory and healthcare professionals, academics, and researchers for future challenges.

Additionally, these funds will drive meaningful change in regulatory practices by enabling CoRE to convene thought leaders and innovators to develop roadmaps and champion transformative ideas, including those addressing emerging topics.

***If you would like to be part of these endeavours where performance and purpose impacts patients, populations and broader health systems, please consider donating to this Fund***

## Benefits of Giving

1

### Tax Benefits

Tax deduction benefits for tax residents in Singapore and gifts to NUS American Foundation is applicable.

2

### Dollar-For-Dollar Government Matching

Your gift will double in value right at the onset. It will attract a dollar-for-dollar matching grant from the Government.
