MESSAGE FROM THE DEAN DUKE-NUS MEDICAL SCHOOL

“

I would like to extend my heartiest congratulations to all graduates and look forward to your continued growth into outstanding professionals.

CoRE remains committed to promoting professional excellence and regulatory capacity building for the betterment of societies, health systems, and patients.

”

PROF THOMAS COFFMAN

Dean

Duke-NUS Medical School

MESSAGE FROM THE CHAIR CENTRE OF REGULATORY EXCELLENCE

“

Recognizing the vital role that regulatory science and practice play to safeguard the health and well-being of individuals and as the cornerstone of meaningful health care systems, it is a pleasure to celebrate the achievements of this graduating cohort of students receiving the Graduate Certificate in Health Products Regulation, and to offer my sincere congratulations as well as deep thanks for the contributions they will make to build a safer, healthier future for us all.

”

DR MARGARET HAMBURG

Former Commissioner

U.S. Food And Drug Administration

MESSAGE FROM CoRE'S SENIOR MANAGEMENT

“

I would like to extend my warmest congratulations to the graduating cohort this year. This is a significant step in your professional journey and with the skills you have gained, I am confident you will continue to experience ongoing success in your future careers.

”

PROF JOHN LIM

Executive Director
CoRE

“

Congratulations to our graduates on their successful completion of the Graduate Certificate. Do stay connected with our CoRE-mmunity, and we look forward to hearing of your great accomplishments!

”

A/PROF SILKE VOGEL

Deputy Director

DUKE-NUS GRADUATE CERTIFICATE IN HEALTH PRODUCTS REGULATION

CoRE's flagship education programme, the Duke-NUS Graduate Certificate in Health Products Regulation, is the first dedicated regulatory training programme catering to the learning needs of working regulatory and healthcare professionals in Singapore, South-East Asia and the Asia-Pacific.

***Click to
read more***

CoRE taps into an international community of active and deeply experienced practitioners of regulatory affairs and biomedical science who provide comprehensive perspectives of the dynamically evolving regulatory and health systems environment. From governments and National Regulatory Agencies to academia and industry, these thought leaders provide culturally relevant examples and real-life experience to the curriculum, in line with Duke-NUS's hallmark TeamLEAD teaching strategy.

We aim to nurture a generation of future-ready regulatory professionals, and better prepare them for their careers.

The programme has gained a positive reputation for educating and upskilling regulatory and healthcare professionals by recognising the importance of staying relevant in the flourishing biomedical landscape of Singapore, ASEAN and the Asia-Pacific.

Towards Empowering Regulatory Professionals

Fuelled by professional development and networking with industrial regulatory experts through, our graduates are empowered to work towards solving healthcare's most pressing challenges.

Read on to discover our graduates, dreams, aspirations, and hopes for the future of healthcare.

YOUR CONTRIBUTION IS PIVOTAL TO THE FUTURE OF HEALTHCARE

ENABLING A WORLD WHERE EVERYONE HAS ACCESS TO GOOD, SAFE AND EFFECTIVE HEALTH PRODUCTS

To continue in this mission and effect sustained, meaningful change across the region, the Centre has established **The CoRE Campaign #Thankstoyou** with two funds

Regulatory Excellence Fund

This fund will play an important role in enabling the Centre to sustainably address region-wide issues, explore new opportunities for innovation and impactful change, and promote long-lasting cooperative solutions in a time where regulatory agility, convergence, and reliance are key

Alasdair Breckenridge Fund

In keeping with Professor Sir Alasdair Breckenridge's vision and interest of promoting professional excellence, this fund is established to further regulatory capacity building through study awards tenable at CoRE.

We invite you to join these endeavours where performance and purpose impacts patients, populations, and broader health systems.
