# Guest-of-Honour

## **Prof Kenneth Mak** **Director-General of Health** **Ministry of Health, Singapore**

Professor Kenneth Mak is Director-General of Health at the Ministry of Health Singapore.

In this role, Professor Mak is the principal medical adviser to the Singapore Government and provides professional input and guidance to other Ministries and public agencies on health and healthcare related issues.

Professor Mak oversees the provision of all health services in Singapore. Within the Ministry of Health, he ensures that clinical services are delivered seamlessly across multiple settings by the public healthcare system. He leads in developing and implementing national healthcare policies in areas such as population health, healthcare regulation, communicable diseases and non-communicable diseases, healthcare professional standards as well as the development and enhancement of the performance of the nation's healthcare system and services. Professor Mak works closely with Singapore's Regional Health Systems and healthcare institutions on care integration as well as on Singapore's long-term healthcare transformation strategy.

During the COVID-19 pandemic, Professor Mak advised the Multi-Ministry Taskforce as well as other governmental agencies in crafting Singapore's overall strategy for managing the outbreak and oversaw the integrated public health response to control the spread of COVID-19 in our community. Professor Mak is a familiar face in Singapore as he appeared regularly in the media conferences of the COVID-19 Multi-Ministry Taskforce.

**Asia's First Academic Regulatory Training Programme**

# Duke-NUS Graduate Certificate in Health Products Regulation

The Graduate Certificate Programme in Health Products Regulation, the flagship education initiative of the **Duke-NUS Medical School Centre of Regulatory Excellence (CoRE)**, stands as a premier regulatory training programme focused on the needs of the Asia-Pacific Region.

## Stay Ahead

CoRE offers a neutral academic setting to facilitate learning, networking and collaboration.

Meticulously designed, this programme aims to enhance the regulatory competencies of professionals from both the public and private sectors who are interested in gaining insights on the impact and contributions of regulatory science to the wider healthcare environment.

## Duke-NUS Graduate Certificate in Health Products Regulation

Recognised for its consistent quality, practical relevance and focus on building capacity in the dynamic healthcare landscapes of Singapore, ASEAN and the wider Asia-Pacific region, the Graduate Certificate Programme has established its role in enhancing the confidence and skills of regulatory and healthcare professionals.

NEW

## GRADUATE CERTIFICATE PROGRAMMES

With CoRE's in-depth understanding of the needs and opportunities for development of the Asia-Pacific regulatory environment, this programme has now expanded into **two Graduate Certificate programmes** to support the evolving needs and growth of professionals across the spectrum of health products.

# Prof Thomas Coffman

**Dean**

**Duke-NUS Medical School**

Congratulations on your graduation!  
As you step forward, equipped with the knowledge and networks gained through our programme, you are ready to lead with integrity and innovation.

Your success, coinciding with CoRE's 10th anniversary, is a testament to your dedication and our shared commitment to an equitable healthcare future for all.

You now join a community of distinguished professionals who are shaping a future where regulatory pathways are efficient, healthcare is transparent and precise, and public interest is safeguarded.

Congratulations once again and a warm welcome to our alumni family!

# Prof John Lim

**Executive Director**

**CoRE**

I extend my heartfelt congratulations on your successful completion of the Graduate Certificate in Health Products Regulation programme.

As CoRE celebrates its 10th Anniversary, your achievements are a testament to our decade-long commitment to advancing regulatory science.

This milestone year is not only a celebration of our past accomplishments but also a look forward to the future innovations you will drive.

You, our graduates, embody the spirit of innovation and commitment that has propelled us forward!

# Prof Silke Vogel

**Deputy Director**

**CoRE**

***Congratulations on your remarkable achievement!***

This year holds special significance as we celebrate CoRE's 10<sup>th</sup> Anniversary.

Over the past decade, CoRE has cultivated a tradition of excellence in regulatory education and innovation, and your graduation marks a significant milestone in this journey.

You have demonstrated exceptional dedication and resilience, qualities that drive our mission at the Centre.

As you join the ranks of CoRE's esteemed alumni, I encourage you to leverage the knowledge and networks you have gained.

We celebrate your success and anticipate the significant contributions you will make to the field!

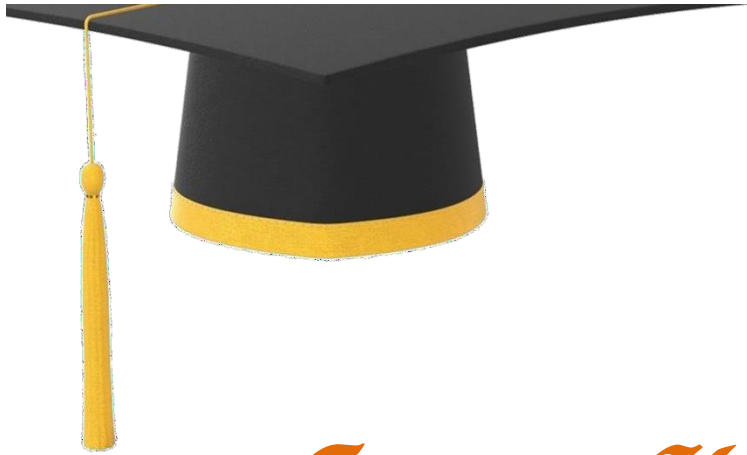

In our hands lies the power to sculpt a healthier future, where compassion and innovation converge to transform healthcare for generations to come.

## *Future Healthcare Horizons*

Our graduates embody the spirit of innovation and dedication that has propelled the Centre forward, placing them at the forefront of healthcare innovation and seizing opportunities as they arise.

Read on to explore their vision as future leaders in health regulation.

**Congratulations to  
our Graduates**

# The CoRE Campaign

## #Thankstoyou

Since 2014, CoRE has been making strides in enhancing health and regulatory systems in the Asia-Pacific region, and promoting the advancement of excellence in regulatory systems towards the mission of safeguarding the health and well-being of patients and populations.

To continue our work in transforming health regulatory systems and meeting the needs of people now and in the future, CoRE has established the Regulatory Excellence Fund.

Your contribution to this funds will empower CoRE to transform lives, rise to new public health challenges, and make impactful changes for the future.
